

HR30 Series Connectors

Perfect for any application that requires a small, waterproof, corrosion-resistant interconnect. These lightweight miniature connectors are IP67 compliant, offer complete protection from dust and water penetration, and have a secure built-in lock/release mechanism while allowing for quick disconnection.

Wiring Duct

Premium wire management product for routing and concealing wiring. Wide variety of sizes, colors and materials are available. Also available, Din Rail wiring duct, flexible wiring duct and optional covers.

APEM Power Rocker Switches KR Series

Power Rocker Switches. Carling replacement. Wide choice of colors. Laser etched symbols. Illuminated or non-illuminated. Optionally sealed to IP68.

Cable Management Accessories

Comprehensive selection of wire management products. High quality products engineered to speed installation and lower your installed costs.

Heilind Electronics is a leading distributor of electronic components to industrial OEMs and contract manufacturers. Our warehouses have the industry's largest inventory of interconnect products from industry-leading manufacturers. Our high-quality products for the marine industry include the following:

Connectors
Solderless Terminals
Tubing & Sleeving
Hardware

Terminal Blocks
Relays
Wire & Cable
ID Products/ Labels

Switches
Fuses & Holders
Fans
LED's

Your Marine Interconnect Specialist

High-quality products for the marine industry

Perma-Seal™

Terminals and splices that provide a rugged, environmentally sealed connection for wire sizes 8 to 22 awg. Insulates, seals, and protects joints from physical abuse, abrasion, water and salt. Shrinks 40% faster than comparable nylon or polyolefin products.

XRC™ (Extra Rugged Circular) Sealed Plugs and Receptacles

Economical, rugged, sealed, circular connector. 14 and 31 circuit connectors ideal for the harsh Marine and non-automotive transportation environments. Deutsch equivalent.

MX150L™ Sealed Connector System

High performance connector system suitable for challenging, rugged, and harsh applications found in the Marine and non-automotive transportation environments. 8, 10, 12 AWG. Up to 40.0A applications. IP67 rated, no individual wire seals.

Mini-Fit H2O™ Sealed Interconnect System

Compact connection for wire to wire applications. The Mini-Fit H2O connector system is IP67-rated, which ensures connector integrity when submersed in up to one meter of water. Terminals accept 18-20awg UL 1015 wire and can handle up to 9.0 amps per circuit.

Foundation Fieldbus Cordsets and Receptacles

Foundation Fieldbus is a communication protocol used to connect field-level instrumentation and controls to a PLC or DCS controller. Molex provides sealed, watertight, rugged connectors and assemblies for the most demanding applications.

molex®
one company > a world of innovation

**Flexible Cable Protection System**

For cables that require better protection. Corrugated plastic, protective metal, or plastic conduit and fittings.

Heatshrinkable Tubing

Flexible, flame-retardant, general purpose polyolefin tubing, 2:1 shrink ratio. Wide range of sizes and colors.

SUPERSEAL 1.5 SERIES Connector

IP 67 sealed connector system. Single wire seal or cavity plug. Polarized mating. Wire range 22-16awg. Available in 1-6 positions. Up to 14A rating.

Wire to Wire Splicing

Used for splicing a wide range of cables, including coax, and multiconductor. One-piece design provides easy installation and lower installed cost. Controlled soldering process, encapsulation, inspectability, strain relief and insulation.

UL1500 Breakers

Secondary protection thermal and magnetic hydraulic circuit breakers meet ignition protection requirements in accordance with UL1500. Offers amperage ratings from 200 milliamps to 50 amps depending upon the circuit breaker and has a broad range of mounting, actuator, termination, and marking options available to meet customer marine application requirements.

Tyco Electronics
Authorized Distributor

Terminals and Splices

Reliable termination in applications ranging from control circuits to heavy duty power wiring. Pre-insulated and color coded by wire size for easy identification, the funnel entry assures easy wire insertion for high speed production and special plating process creates durable corrosion resistance to salt spray and most chemical fumes. UL, CSA, Military Approved.

BT 3500 Battery-Hydraulic Hand Tool

An ergonomic marvel, which positions the battery and pump in a separate unit allowing for bench-top setup or the operator to wear it in several different configurations. The small, rotatable crimp head delivers flexibility and the ability to reach tight spaces, making the user's job more efficient.

HUBBELL
Wiring Device-Kellems

Marine Twist-Lock Device

30 Ampere 125 volt ship to shore devices. 316 Stainless steel power inlet. Easy to use pushbutton latch. Watertight when fully engaged.

**Marine Pin Sleeve**

100 Ampere 125/250 volt Ship to shore cable sets. UL listed, corrosion resistant, high visibility yellow STOW cable.
